

I would like to tell you about school I would like to study in. So, I would like to study in Sidcot School. Sidcot School was established in 1699. This school is a British co-educational independent school for boarding and day pupils, associated with the Religious Society of Friends. It is one of seven Quaker schools in England. The school is situated in the Mendip Hills near the village of Winscombe and caters for children between the ages of 3 and 18. Children aged from 3 to 11 are educated in Sidcot Junior School, which is located on its own site adjacent to the main campus. About 130 of the school's 525 pupils are getting education in this junior school. Over 29 different countries are represented making up 25% of the school. Boarders live in the grounds in one of the 6 boarding houses. The girls' houses are Newcombe, School House Girls and Meadow side, and the boys are Combe House, School House Boys and Wing House. There are four houses in the revised house system named after the cardinal points of the compass: North, East, South and West. The houses are mainly used for sports days and house matches of sport. Sidcot has built a new creative arts block, with extensive drama, art and music facilities. Pupils go to do homework in a library every Saturday. Actually, trips to London are organized. I think that it is a very good school and I would like to visit this interesting place.
